Lagos, Nigeria

PROFESSIONAL SUMMARY

Full-Stack JavaScript Developer with 3+ years of proven experience building production-ready applications using Next.js, React, Node.js, and MongoDB. Expert in developing complete end-to-end solutions from backend API development to responsive frontend interfaces. Successfully delivered live e-commerce platforms and cryptocurrency applications serving hundreds of users. Strong experience in API integration, backend collaboration, and deploying scalable applications to production environments, including mobile app stores.

TECHNICAL SKILLS

- **Frontend Development:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
- **Backend Development:** Node.js, Express.js, RESTful API Development, MongoDB, API Integration
- **Mobile Development:** React Native, Expo, Cross-platform deployment (iOS/Android)
- **State Management:** Zustand, React Context API
- **Styling & UI:** Chakra UI, Bootstrap, Tailwind CSS, Responsive Design, Component Libraries
- **Cloud & Deployment:** AWS S3, Vercel, Firebase, Git version control, Production debugging
- **Development Tools:** Git, GitHub, npm/yarn, Agile workflows, Cloudflare reCAPTCHA

PROFESSIONAL EXPERIENCE

- **Freelance Full-Stack Developer** Feb 2022 - Present
Next.js, React & Backend Specialist - Production Applications Remote
 - Developed and deployed complete full-stack e-commerce marketplace using Next.js/TypeScript frontend, Node.js/Express/MongoDB backend, serving 3,000+ active users
 - Built React Native mobile app with Expo, successfully deployed to App Store and Google Play Console
 - Implemented single backend architecture serving both web and mobile clients with optimized API endpoints
 - Integrated AWS S3 for scalable image storage and Cloudflare reCAPTCHA for security
 - Delivered cryptocurrency trading platform using Next.js with Bootstrap, integrating real-time API data
 - Collaborated with clients on backend requirements, API design, and frontend-backend integration
 - Deployed applications to production using Vercel with Git version control, maintaining 99.5% uptime
- **Buchi Market Hub** Feb 2022 - Jun 2025
Full-Stack Developer - Leading Next.js & Backend Integration Asaba, Nigeria
 - Led development of responsive Next.js e-commerce platform with TypeScript and Chakra UI
 - Integrated dynamic product data from backend APIs with real-time updates and optimized performance
 - Collaborated closely with backend developers to design efficient API endpoints and data structures
 - Implemented Zustand state management for seamless user experience and cart functionality
 - Debugged and resolved production issues, reducing page load times by 25% through API optimization
 - Contributed to 35% increase in sales revenue through improved user experience and performance
- **Various Clients including Turing.com** Oct 2020 - Jan 2022
React & Next.js Developer - Frontend & API Integration Remote
 - Built 15+ responsive web applications using React.js, Next.js, and modern JavaScript
 - Specialized in converting UI/UX mockups into functional, pixel-perfect React components
 - Integrated third-party APIs and payment systems with robust error handling
 - Worked with backend teams to optimize API calls and implement efficient data fetching
 - Reduced project delivery time by 30% through reusable component architecture

KEY PROJECTS

- **Full-Stack E-Commerce Marketplace** 2024
Next.js, TypeScript, Chakra UI, Node.js, Express, MongoDB, React Native, AWS S3
 - Developed complete full-stack solution: Next.js/TypeScript frontend, Node.js/Express/MongoDB backend
 - Built React Native mobile app with Expo, deployed to both App Store and Google Play stores
 - Implemented single backend serving both web and mobile clients with optimized RESTful APIs
 - Integrated AWS S3 for scalable image storage and Cloudflare reCAPTCHA for security
 - Deployed backend to Vercel with Git version control and implemented production debugging workflows
 - **Production Status:** Live application serving real users with payment processing and mobile apps
- **Cryptocurrency Trading Platform** 2024
Next.js, Bootstrap, JavaScript, RESTful API Integration
 - Built responsive cryptocurrency platform using Next.js with server-side rendering
 - Implemented Bootstrap for professional UI with perfect mobile and desktop responsiveness
 - Integrated real-time cryptocurrency APIs for live price feeds and market data updates
 - Optimized API calls and implemented efficient caching for high-performance user experience
 - Delivered production-ready application with robust error handling and user authentication
 - Deployed to Google Firebase
- **Interactive Portfolio Website** 2023
React, TypeScript, Three.js, Responsive Design
 - Created modern portfolio showcasing full-stack development skills with React and TypeScript
 - Achieved 95% Google PageSpeed score through performance optimization and efficient API usage
 - Implemented fully responsive design ensuring perfect display across all devices and browsers
 - **Live Demo:** <https://codewithjonas.com>

EDUCATION

- **Babcock University** Sept 2023 - July 2025
Master of Science in Computer Science Ilishan-Remo, Nigeria
- **Ebonyi State University** Feb 2013 - Oct 2017
Bachelor of Science in Computer Science Abakaliki, Nigeria

Passionate about building scalable full-stack applications with seamless frontend-backend integration
