EXPERIENCE

Woodfrog Tech

WFO | June 2025 - Present

Full-Stack Developer

- Collaborated cross-functionally with design, QA, and product teams to ensure seamless front-end and back-end integration.
- Utilized Git for version control, enabling efficient team collaboration and streamlined code management.
- Contributed to Continuous Integration (CI) workflows, automating testing and deployment pipelines for faster, more reliable releases.
- Actively participated in agile practices, including sprint planning, daily stand-ups, and design reviews, to deliver high-quality features consistently.

The Digitech Solutions

WFH | Dec 2024 – Mar 2025

Full-Stack Development intern

- Built a complete e-commerce platform using React.js, with a strong focus on intuitive UX and adherence to Software Development Life Cycle (SDLC) principles
- Developed a secure, scalable hospital management system in Next.js, integrating APIs and implementing encryption to ensure data protection.

EDUCATION

B.Tech in Computer Engineering

J.T. Mahajan College of Engineering, Faizpur — 2022 – 2025

Diploma in Information Technology

Government Polytechnic, Jalgaon — 2020 – 2022

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, C++

Front-End: React.js, Next.js, SASS, Tailwind CSS, Bootstrap, Figma

Back-End: Node.js, Express.js

Databases: MongoDB, SQL

Development Tools: Git, GitHub, VS Code, Postman

PROJECTS

Multi-Role Authentication System | [Github](#) | [Behance](#)

- Built a role-based web application using **React (Frontend)**, **Node.js (Backend)**, and **MySQL (Database)** supporting three distinct user roles: System Administrator, Store Owner, and Normal User.
- Admin Panel: Real-time analytics dashboard, advanced user filtering, and full control over users and store
- Normal User : Store discovery, rating submissions, and profile management.
- Store Owner : Dashboard with detailed rating analytics and store management tools.

Food Delivery Platform | [Website](#)

- Created 18+ RESTful APIs for robust backend functionality and built an **admin panel** for comprehensive management.
- Utilized React.js for dynamic UI, Node.js for backend services, and MongoDB for efficient data storage.
- Applied best SEO practices and mobile-first design, starting with Figma for optimal results.

ACHIEVEMENTS

- Built 30+ Real-World APIs RESTful APIs for auth, CRUD, admin panels, and calendar features — demonstrating strong backend and DB design skills.
- Selected to represent the college at Tech Novation 2024, a prestigious district-level project exhibition, for demonstrating creativity and practical innovation.
- Earned 3rd place in a competitive English handwriting contest, outperforming 90+ participants with precision and presentation skills.
